

IEA Bioenergy Task 38 Expert meeting – Vienna, November 16-17 2012

Impact of Timing of GHG emissions

| Name | Institution |
|------------------------|--|
| Agostini Alessandro | EC JRC, Netherlands |
| Achenbach Hermann | Thünen-Institute of Forest Economics, Germany |
| Bird Neil David | JOANNEUM RESEARCH, Austria |
| Cherubini Francesco | Norwegian University of Science and Technology, Norway |
| Chum Helena | National Renewable Energy Laboratory, USA |
| Cowie Annette | Rural Climate Solutions, Australia |
| George Brendon | University of New England & NSW DPI, Australia |
| Helin Tuomas | VTT, Finland |
| Kendall Alissa | University of California Davis, USA |
| Kirschbaum Miko | Landcare Research, New Zealand |
| Kline Keith | Oak Ridge National Laboratory , USA |
| Kloverpris Jesper | Novozymes A/S, Denmark |
| Levasseur Annie | Chemical Engineering Department of Montreal, Canada |
| Liptow Christin | CHALMERS University of Technology, Sweden |
| Marland Eric | Appalachian State University, USA |
| O'Hare Michae | Goldmann School of Public Policy University of California, USA |
| Parikka Matti | Swedish Energy Agency, Sweden |
| Pingoud Kim | VTT, Finland |
| Ros Jan | Environmental Assessment Agency, Netherlands |
| Seabras Joaquim | Campinas University, Brazil |
| Spitzer Josef | IEA Bioenergy, Austria |
| Windsperger Andreas | Institute for Industrial Ecology, Austria |
| Woess-Gallasch Susanne | JOANNEUM RESEARCH, Austria |
| Zetterberg Lars | Swedish Environmental Research Institute, Sweden |
